HOW TO CALCULATE YOUR TOTAL SYSTEM COST

1. Determine your monthly turnover.
2. Split the turnover between Cash, Mobile Money and Card payments using your actual payment mix.
3. Apply the applicable rate to each category:
Cash × 0.60% | Mobile Money × 0.85% | Local Cards × 2.50% | International Cards × 3%–4%.
4. Add the KSh 15,000 monthly platform subscription.
5. The result is your estimated total monthly cost of the Octane Obit system.

TOTAL SYSTEM COST = TRANSACTION FEES + KSh 15,000 MONTHLY SUBSCRIPTION
